

***COR.MEM. Prof. Hristo Beloev, DTSc, DHC mult.  
Rector of University of Ruse Angel Kanchev***

***Dear Prof. Beloev,***

On behalf of the Rector's Office, faculty and students of SOCAR's Baku Higher Oil School I would like to extend our sincere congratulation to you and to your staff on the occasion of **70 year anniversary** of University of Ruse Angel Kanchev.

Despite the fact that the idea on foundation of University of Ruse was raised at the meeting of the 45th General Assembly of the Ruse Chamber of Commerce in 1940, it was not until 1945 that the corresponding decision was taken. The decision mainly aimed at improving the education system of Bulgaria, as well as founding an educational center in Ruse. The outcomes of the past 70 years demonstrate that since the day of its establishment, the activities of University of Ruse completely justified the expectations of the Bulgarian government and society.

Today, University of Ruse possesses diverse infrastructure and being involved in education of highly qualified specialists at Bachelor, Master and Doctorate levels in the field of agriculture, industry, mechanics, production, electrical and power engineering, electronics, automation, transport, business administration, management, natural sciences, education, law, health and medicine, the University is abundantly contributing in development of human potential of Bulgaria. Moreover, the University also managed to establish fruitful cooperation with a lot of international research and educational centers.

It is my pleasure to emphasize that University of Ruse and Baku Higher Oil School are successfully implementing the joint project on education of highly qualified specialists in Process Automation Engineering.

We are certainly convinced in sustainability of this cooperation, and its further expansion at graduate and research levels.

***Dear Prof. Beloev,***

I would like to avail myself of this opportunity and reiterate my congratulations on the **anniversary of University of Ruse**, extending my best wishes of robust health, prosperity and great successes in your professional endeavors to contribute in education of Bulgaria.

***Rector  
of Baku Higher Oil School***

***Elmar Gasimov***
